SahiHisaab (Sahih Hisaab)

Financial Clarity Dashboard for Indian Gig Workers — Complete Tab & Feature Guide

Prepared for User: **Rahul Kaushik** (+91 9876543210) | Pilot Version: 1.0 (Hackathon / Ideathon MVP)

Executive Summary: SahiHisaab solves cash-flow opacity for over 12 million Indian gig workers (delivery partners on Zomato/Swiggy, ride-hailing drivers on Uber/Ola/Rapido, and home service providers). It provides real-time income logging (manual + screenshot OCR parsing), operational expense tracking, bilingual support (English & Hindi), a rules-based government scheme eligibility engine, and a 0-100 Credit-Readiness score.

Detailed Breakdown of Every Application Tab / Page

Tab / Route	Core Functionality & User Flow	Gig Worker Value & Impact
1. /login Phone + OTP Auth	• Enter 10-digit mobile number + 6-digit OTP (mock OTP: *123456*). • **Quick Demo Login** preset for pilot user **Rahul Kaushik**.	**Zero password barrier for non-tech-savvy drivers & delivery partners.**
2. /dashboard Financial Overview	• **Net Income Hero Card**: Large metric displaying Gross Earnings - Expenses. • Timeframe filter (*This Month*, *Last 30 Days*, *All Time*). • **Expense Breakdown Bar Chart** (Fuel, EMI, Recharge, Maintenance). • **6-Month Net Income Trend Line** (Apr-Sep 2026 data). • Recent Activity Log with instant delete actions.	**Provides instant clarity on true take-home cash flow after vehicle & fuel expenses.**
3. /add-income Earnings Logging	• **Tab 1 (Manual Entry)**: Platform dropdown (Zomato, Swiggy, Uber, Rapido, Ola, Urban Company, Other), amount in Rs, date, notes. • **Tab 2 (Photo OCR Entry)**: Upload Swiggy/Zomato payout screenshot -> auto-extracts platform & amount for user confirmation before saving.	**Eliminates typing friction via automated screenshot scanning.**
4. /add-expense Expense Tracking	• Categorized logging for Fuel, Vehicle EMI, Phone Recharge, Maintenance, and Other. • **1-Tap Quick Amount Pills** (Rs 150, Rs 300, Rs 500, Rs 1000, Rs 3200).	**Prevents hidden expense leaks from inflating apparent profit.**
5. /schemes Govt Scheme Engine	• Questionnaire: Age, Monthly Income Band, State, Gig Category. • Rules-based evaluation for **e-Shram**, **PM-SYM**, **PMJJBY**, and **PMSBY**. • Cards with eligibility badges, benefit descriptions, enrollment toggles. • **How to Enroll Modal** with step-by-step guides & official portal links.	**Connects unorganized workers to Rs 2 Lakh insurance cover & pensions.**
6. /score Credit-Readiness	• **0-100 SVG Gauge Visual** rating creditworthiness. • Score Pillars: Income Regularity (35 pts), Income Stability (40 pts), Scheme Coverage (25 pts). • Tier labels (*Prime*, *Good*, *Fair*, *Building*) + actionable score booster tips.	**Unlocks lower-interest micro-loan approval odds from digital lenders.**
7. /profile User & Pilot Settings	• Edit Name, Phone, Gig Category, and City. • **English / Hindi** dynamic language toggle. • **Reset Demo Database** button to restore fresh 6-month historical entries.	**Full bilingual accessibility & seamless pilot presentation reset.**

Key Technical Highlights

• **Mobile-First Responsive Layout**: Optimized for low-end Android smartphones and in-app webviews.
• **Zero-Config SQLite / Supabase Integration**: Out-of-the-box local database with standard SQL migrations for PostgreSQL production

scaling.
• **Single-Port Execution**: Flask REST server directly hosts the bundled ESBuild React application on port 5000.
